SYNOPSIS

- Around 8+ years of experience in area of Java and SFDC programming.
- Good technical skill in Core java and APEX, Lightning and Visual force.
- Experience in implementation using Lightning Components (AURA), Apex Classes & Triggers, Apex Controllers, Extensions, Visual force pages, Dynamic Apex, Tabs and Custom Objects.
- Worked on the designing of Custom Objects, Custom Fields, Page Layouts, Custom Tabs, Sharing Setting, Validation Rule, Workflow Rule and Assignment Rules in Salesforce.
- Used data migration tools such as Apex Data Loader, Salesforce Import and Export Wizard
- Have good experience in Test Methods, and writing SOQL and SOSL queries
- Handled Scheduled and Batch Apex
- Having good communication with the clients in gathering the requirements. Also completed a couple of six-sigma Kaizen's (Value innovations) in the application functionality process improvement.
- Worked in diverse technologies like Java, J2EE, Java Script and force.com.
- Worked on **Service Now** Application for handling different types of tickets like Incident tickets, Problem tickets, Change tickets.
- I have smart thinking capabilities and quick learner. I am adaptable to different kind of environments and always try to be standing in front to lead and maintain team effort.

TECHNICAL EXPERTISE

- Programming Skills: Force.com(APEX, visualforce, lightning components, LDS on VF), JQuery.
- Databases: SQL Server, Oracle
- Mark up Technologies: HTML 5, XML
- Tools and IDEs: Eclipse(+Maven configurations), Layer 7
- Repository tool: SVN, Github.

CAREER PROFILE

Tech Mahindra, Hyderabad.

Role: Tech Lead

Period: Nov 2018 – till date

C A Technologies, Hyderabad.

Role: Sr. Applications Developer

Period: Mar 2015 – Nov 2018

IGATE Global Solutions, Hyderabad.

Role: Senior Software Engineer

Period: Nov 2011 – Mar 2015

ACADEMIC PROFILE

- Master of Computer Applications (**MCA**) in **2011** from **JNTU HYD.**
- Bachelor of Science (**Computer Science**) in **2007** from **SP College**

PROJECT

1. Salesforce implementation GO Plc.

- Type Development
 - Language APEX, Lightning components
 - Platform Force.com
 - Client GO Plc
 - Duration Current project
- This application is an end to end implementation of salesforce (L2O and case management). Complete life cycle of Lead to Opportunity and Case management is implemented. Multiple integrations with legacy system to keep data in sych using platform events. We have also implemented Einstein Bot, for easing the end user interaction on external portal.

Responsibilities:

- I am acting as a Tech Lead for 5 member team. I am a part in requirement gathering, and providing solutions for the requirements as well as development.
- Responsible for Email Handler to process all emails that are coming to GO Plc Exchange in salesforce.
- Completed lightning component to handle data from external objects and manage/associate the same to salesforce objects.
- Responsible for creating Users, Profiles, Roles and Permission Sets
- Worked on Apex Data Loader for various activities.

2. GE Healthcare Tools

- Type Development
 - Language APEX, Lightning components
 - Platform Force.com
 - Client GE
 - Duration Nov 2018 – June 2019
- This application enables channel partners, Field engineers and Customers to order and procure tools related to the service task assigned while field service.

Responsibilities:

- I am part of 5 member team, where I am acting as Tech Lead. I am a part in requirement gathering, developing Order Details component, linelist component, locate component for tools, and many more.
- Responsible for creating CP PO header object Page Layouts, Validation Rules.
- Sharing rules for various objects.
- Responsible for creating Users, Profiles, Roles and Permission Sets
- Worked on Apex Data Loader for various activities.

3. AHCDB

- Type Development
- Language APEX, Visualforce, Lightning components
- Platform Force.com
- Client CA
- Duration May 2018 to Nov 2018

- This application provides support engineers availability and scheduling for nonworking hours. This application gives the ability to schedule and take reports for the schedule hours on the product.

Responsibilities:

- I worked in multiple roles from BSA to developer. I was involved in requirement gathering, developing schedule screens and product information screen.
- Responsible for creating Page Layouts, Validation Rules Workflows, Approval Process.
- Worked on Security settings for objects at Profile, Role and Organization level.
- Sharing rules for various objects.
- Responsible for creating Users, Profiles, Roles and Permission Sets
- Responsible for writing Apex Triggers, Apex Classes and Visual force Pages.
- Responsible for migrating Meta data from one sandbox to another sandbox using Change Sets.

4. PDD

- Type Development
- Language APEX, Visualforce
- Client CA
- Duration May 2017 to Nov 2017

- This application provides product data demographics to CA Employees. CA customers with product entitlements will have multiple products on multiple configurations. Application allows to give complete product and its configuration details to CA employees about customers to give proper support.

Responsibilities:

- I worked in multiple roles from BSA to developer. I was involved in requirement gathering, developing.
- Responsible for creating Page Layouts, Validation Rules Workflows, Approval Process.
- Responsible for creating Users, Profiles, Roles and Permission Sets
- Responsible for writing Apex Triggers, Apex Classes and Visual force Pages.
- Responsible for migrating Meta data from one sandbox to another sandbox using Change Sets.
- Worked on Apex Data Loader for various activities.

5. CML Data retention

- Type Development
- Language APEX visualforce AWS
- Platform Force.com, AWS
- Client CA
- Duration Dec 2016 to May 2017
-

- This application provides ability to search for archived contracts. CML is a contract management application which is decommissioned and as part of data retention data from selectica is moved to AWS as flat files(XML) and they are accessed from salesforce in order to give search criteria.

Responsibilities:

- I worked in multiple roles, I was involved in setting up the cloud environment. This application is deployed to AWS Elastic Beanstalk cloud. I developed AWS SFDC interaction and developed visualforce pages to show the data from AWS.
- Responsible for writing Apex Classes and Visualforce Pages.
- Responsible for migrating Metadata from one sandbox to another sandbox using Change Sets.
- Worked on Apex Data Loader for various activities.

PERSONAL INFORMATION

- E-mail Id Rajendar.bommidi@gmail.com
- Mobile +91-9177719594
- Date of Birth January 30, 1987.
- Gender Male
- Marital Status Married
- Nationality Indian
- Permanent Address Plot No 71, Vinayak nagar, ECIL, HYD. Pin code- 500062

ADDITIONAL INFORMATION

Languages known

Fluent in English, Hindi and Telugu.

Strengths

- I have a good nature of mingling with new individuals.
- I have good communication skills with smart thinking capabilities and quick learner.
- I am adaptable to different kind of environments and always try to be standing in front to lead and maintain team effort.
